On September 29, 2021, the Hon'ble Delhi High Court, in response to petition filed by the Company, has stayed the invocation of the said performance bank guarantee and restrained the Nominated Authority from taking any coercive steps in the matter. The said Writ Petition is yet to be adjudicated by the Delhi High Court. Meanwhile, the Hon'ble Delhi High Court vide its order dated March 03, 2022, had directed the Nominated authority to return the said performance bank guarantee within one week from the date of execution of Letter of Intent of "Coal Mines Production and Development Agreement" ("CMPDA") with a new bidder and to present the said CMPDA before the Delhi High Court. The Nominated Authority has concluded the fresh e-auction of Jitpur Coal Block on September 13, 2022. Pursuant to this, the CMDPA has been signed between the new bidder and the Nominated Authority, Ministry of Coal on October 13, 2022. The Nominated Authority is yet to submit CMPDA with new bidder with Delhi High Court in the matter.

Earlier, the Company has submitted the details of costs / expenditure incurred towards development of mine with Nominated Authority, and based on allotment of mine to a new bidder, the Company expects a favourable resolution relating to cost realisation of Jitpur mine with Nominated Authority and for release of Performance Bank Guarantee. The Company has also obtained legal opinion basis which it is reasonably confident to get compensation realised of the entire costs incurred towards the development of the coal mine in the subsequent period.

- 48** The Company through erstwhile subsidiary, Raipur Energen Limited ("REL") has incurred cost of ₹ 55.57 crore and ₹ 30.75 crore towards development of Talabira Coal mine and Ganeshpura Coal mine, respectively in the earlier years.

In the above matter, earlier the Company had filed two writ petitions with Hon'ble Delhi High Court requesting surrender of the said mines in view of Union of India's ("UoI") notification dated April 16, 2015 stating capping of the fixed / capacity charges and also requested to refund the costs incurred along with the release of bid security. The Hon'ble Delhi High Court vide its single order dated April 15, 2019 dismissed the petitions on the ground of delay in filling of writ petitions. Consequently, the Company filed petitions before Hon'ble Supreme Court to set aside the order of the Hon'ble Delhi High Court. Pending adjudication of the petitions, Hon'ble Supreme Court directed UoI and others vide its order dated May 30, 2019 that no coercive action to be taken in these matters.

The management expects favourable resolution of these matters and is reasonably confident to realise the entire cost spent towards these coal mines as compensation in the subsequent periods.

However, the matter has been pending for long period of time, the company based on prudence principles has fully provided the amount in the books for the purpose of financial reporting.

- 49** The Government of India conducted bidding for allocation of coal blocks, under the coal block auction process whereby the MEL acquired the rights of Tokisud Coal Block (in the state of Jharkhand) on March 18, 2015. Subsequently, in the month of April 2015, by way of a notification, Ministry of Power put cap on the fixed/capacity charges due to which MEL had filed a writ petition in the High Court of Delhi for impugning the above referred notification and also offered to return the said coal block to the Government of India against return of the performance security in the form of Bank Guarantee of ₹ 261.76 crore provided by MEL and moneys paid, without any penalty.

However, Hon'ble High Court vide its judgement dated April 15, 2019 dismissed the petition of MEL. Subsequently, MEL has filed Special Leave Petition (SLP) before the Hon'ble Supreme Court against the order of the Hon'ble High Court. Meanwhile, the bank guarantee of ₹ 261.76 crore was invoked by the Nominated Authority.

Notes to Consolidated Financial Statements

for the year ended March 31, 2024

The Union Ministry of Coal has re-allocated the said coal block to National Mineral Development Corporation (NMDC) for commercial mining. MEL had incurred a total cost of ₹ 491.62 crore towards development of tokisud coal mine. Nominated authority vide order dated March 16, 2022 determined ₹ 163.23 crore being the total compensation payable by successful allottee (NMDC) to the MEL. The said amount has been received during the year ended March 31, 2023. During the pendency of the matter in Supreme Court, the Company has fully provided for the balance receivable of ₹ 328.41 crore in the books for the purpose of financial reporting.

- 50** i) The National Green Tribunal ("NGT") in a matter relating to non-compliance of environmental norms relating to Udupi thermal power plant ("Udupi TPP") directed the Company vide its order dated March 14, 2019, to make payment of ₹ 5.00 crore as an interim environmental compensation to Central Pollution Control Board ("CPCB"), which was deposited by the Company with CPCB under protest, in April 2019 and expensed the same in the books.

NGT vide its order dated May 31, 2022 settled the matter and directed the Company to deposit an additional amount of ₹ 47.02 crore with CPCB within 3 months from the date of order. The Company has recognised expense provision of ₹ 47.02 crore in the books on a conservative basis, although, the Company has filed petition with the Hon'ble Supreme Court dated August 26, 2022 against the above referred NGT order. The Udupi TPP continues to operate in compliance with all the conditions under Environment Clearance as at reporting date.

- ii) In case of MEL, Hon'ble National Green Tribunal (NGT) vide order dated August 28, 2018 has prohibited Northern Coalfields Limited (NCL) to transport coal by road, who is the major supplier of coal to MEL. The customers of NCL (along with the Company) had requested for some time to allow till a alternative arrangement for transportation of coal is in place. The Oversight Committee of NGT (Committee) as an interim measure allowed to transportation of coal by road for two months period.

In the meantime, NCL moved application before Hon'ble NGT to review its order. However their application was rejected. Thereafter NCL moved to Hon'ble Supreme Court who stated that 'status quo as of today shall be maintained in the meantime'.

However the Committee is of the view that Status quo order was passed when NGT order on coal transportation was in operation which has prohibited NCL to transport coal by road. Consequently, a General Notice from NCL on June 22, 2019 has been served on MEL confirming the above position to stop sale of coal by road to MEL at its Power Plant at Singrauli M.P, Sonabhadra U.P.

Subsequently, NCL decided to keep the sale of coal in abeyance for the time being and to approach Hon'ble Supreme Court for further resolution of issue. The Company has also approached Hon'ble Supreme Court to obtain necessary directions which would ensure continuous operations of the Company, since its operations came to halt fully (for 7 days) after supply of coal being stopped by NCL.

Hon'ble Supreme Court vide its order dated July 01, 2019 has ordered to maintain status quo i.e. permitting the transportation of coal by road from NCL till the further order. Pending the decision of Hon'ble Supreme Court, the Company is presently getting the supply of coal through road for its operations of generation of electricity.

- 51** (a) In respect of Mundra TPP, the management believes that on account of resolution of majority of the issues relating to tariff compensation claim with GUVNL and Haryana Discoms and also on account of execution of 360 MW PPA with MPSEZ Utilities Limited ("MUL"), and certain other factors, Mundra TPP of the Company would be able to establish profitable operations over a foreseeable future and meet its performance and financial obligations. During the year, the Company has resumed supply of power to Haryana Discom and consequently has improved its operational performance in terms of achieving Higher Plant load factor (PLF) and generating positive operating cashflows, hence, based on the assessment of value in use of Mundra TPP, no provision / adjustment is considered necessary to the carrying value of its Mundra TPP related property, plant and equipment aggregating to ₹ 15,094.30 crore as at March 31, 2024.

- (b) The Company has determined the recoverable amounts of all its Thermal Power Plants (including goodwill allocated to respective Power Plants) over their useful lives based on the Cash Generating Units ("CGUs") identified, as required under Ind AS 36, Impairment of Assets on the basis of their Value in Use by estimating the future cash inflows over the estimated useful life of the Power Plants. Further, the cash flow projections are based on estimates and assumptions relating to tariff, operational performance of the Plants, availability of domestic coal under fuel supply agreement / coal linkage as per the directives of Competent Authority, life extension plans, market prices of coal and other fuels, exchange variations, inflation, terminal value etc. which are considered reasonable by the Management.

On a careful evaluation of the aforesaid factors, the Management of the Group has concluded that the recoverable value of such CGUs individually is higher than their respective carrying amounts as at March 31, 2024. However, if these estimates and assumptions were to change in future, there could be corresponding impact on the recoverable amounts of the Plants.

53 Financial Risk Management Objective and Policies :

The Group's risk management activities are subject to the management direction and control under the framework of Risk Management Policy as approved by the Board of Directors of the Company. The Management ensures appropriate risk governance framework for the Group through appropriate policies and procedures and the risks are identified, measured and managed in accordance with the Group's policies and risk objectives.

The Group's financial liabilities (other than derivatives) comprises mainly of borrowings including interest accrual, leases, trade, capital and other payables. The Group's financial assets (other than derivatives) comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade and other receivables.

In the ordinary course of business, the Group is exposed to Market risk, Credit risk and Liquidity risk.

(i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and commodity risk.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the part of Group's debt obligations with floating interest rates.

The Group manages its interest rate risk by having a mixed portfolio of fixed and variable rate loans and borrowings. Significant portion of Group's borrowings is in ₹ and are borrowed at fluctuating interest rates.

The sensitivity analysis have been carried out based on the exposure to interest rates for instruments not hedged against interest rate fluctuation at the end of the reporting period. The said analysis has been carried out on the amount of floating rate liabilities outstanding at the end of the reporting period. The year end balances are not necessarily representative of the average debt outstanding during the year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

In case of fluctuation in interest rates by 50 basis points on the exposure of borrowings (having fluctuating rates i.e. exposed to changes in rates) of ₹ 28,053.90 crore as on March 31, 2024 and ₹ 21,985.47 crore as on March 31, 2023 respectively and if all other variables were held constant, the Group's profit or loss for the year would increase or decrease as follows :

Particulars	₹ In crore	
	For the year ended March 31, 2024	For the year ended March 31, 2023
Impact on Profit or Loss before tax for the year	140.27	109.93
Impact on Equity	104.97	109.93

The Group intends to hold investment in liquid mutual fund for relatively shorter period and hence, interest rate risk is not material to that extent.

b) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (Coal imports etc.) and borrowings. The Group manages its foreign currency risk by hedging transactions that are expected to realise in future.

Notes to Consolidated Financial Statements

for the year ended March 31, 2024

53 Financial Risk Management Objective and Policies : (Contd...)

The Group manages its foreign currency risk by entering into currency swap for converting ₹ loan into other foreign currency for taking advantage of lower cost of borrowing in stable currency environment. The Group also enters into various foreign exchange hedging contracts such as forward covers, swaps, options etc. to mitigate the risk arising out of foreign exchange rate movement on foreign currency borrowings or trade payables. (including Capital Creditors)

Every one percentage point depreciation / appreciation in the exchange rate between the Indian rupee and U.S.dollar on the unhedged exposure of \$ 73.52 million as on March 31, 2024 and \$ 234.08 million as on March 31, 2023 would have affected the Group's profit or loss for the year as follows:

Particulars	₹ In crore	
	For the year ended March 31, 2024	For the year ended March 31, 2023
Impact on Profit or Loss before tax for the year (Net of amounts capitalised under Property, Plant and Equipment)	6.13	19.23
Impact on Equity	4.59	16.38

c) Commodity price risk

The Group's exposure to commodity price is affected by a number of factors including the effect of regulation, the price volatility of coal prices in the market, including imported coal, contract size and length, market condition etc. which is moderated by optimising the procurement under fuel supply agreement and getting compensated under long term power purchase agreements and change in law regulation. In case, the Group anticipates non-availability of coal, the same is mitigated by sourcing imported coal in advance to meet the demand. Its operating / trading activities require the on-going purchase for continuous supply of coal and other commodities. Therefore the Group monitors its purchases closely to optimise the procurement cost.

(ii) Credit risk

Credit risk is the risk that counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

a) Trade Receivables

The Group is having majority of receivables from State Electricity Boards which are Government undertakings and have interest clause on delayed payments and hence, they are secured from credit losses in the future. The receivable against supply of Electricity to Bangladesh Power Development Board (BPDB) are secured against sovereign guarantee of Bangladesh Government.

b) Other Financial Assets

This comprises of deposit with banks, loans, investments in mutual funds, derivative assets and other receivables. The company limits its exposure to credit risks arising from these financial assets and there is no collateral held against these because counter parties are group companies, banks and recognised financial institutions. Banks and recognised financial institutions have high credit ratings assigned by credit rating agencies.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities.

53 Financial Risk Management Objective and Policies : (Contd...)

The Group monitors its liquidity requirement using cash flow forecasting models. These models consider the maturity of its financial investments, committed funding and projected cash flows from operations. The Group's objective is to provide financial resources to meet its business objectives in a timely, cost effective and reliable manner and to manage its capital structure. A balance between continuity of funding and flexibility is maintained through internal accruals as well as adequately adjusting the working capital cycle.

Having regard to the nature of the business wherein the Group is able to generate regular cash flows over a period of time, any surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in highly liquid mutual funds with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

Read with note 55, the Group expects to generate positive cash flows from operations in order to meet its external financial liabilities as they fall due and also consistently monitors funding options available in the debt and capital market with a view to maintain financial flexibility.

However, the SC concluded that the SEBI should complete the pending two investigations, preferably within 3 months, and take its investigations (including the twenty-two investigations already completed) to their logical conclusion in accordance with law.

During the year ended March 31, 2024, the Company has received two show cause notices ("SCN") from the SEBI alleging non-compliance of provisions pertaining to related party transactions in the Listing Agreement and LODR Regulations with regard to certain transactions by the Company with third parties in earlier financial years, from a substance-over-form perspective, which were fully settled during the year ended March 31, 2023. As a consequence, the SCNs allege that the said transactions are not reported in the relevant years' financial statements / annual report, and requisite review / approvals for such transactions is not taken, as applicable. Subsequent to year end, the Company has responded to SEBI on both SCNs. Based on legal advice obtained, management believes that considering that alleged transactions with third parties were undertaken in compliance with applicable law at the relevant time, at terms comparable to market rates, and accordingly, there is no non-compliance of applicable laws and regulations as alleged by the SCNs, and the SCNs have no material consequential effects to the relevant years' financial statements.

In April 2023, the Holding Company had obtained a legal opinion by independent law firm, confirming (a) none of the alleged related parties mentioned in the short-seller report were related parties to the Group, under applicable frameworks; and (b) the Group is in compliance with the requirements of applicable laws and regulations. Subsequent to the SC order dated January 03, 2024, to uphold the principles of good governance, the Adani Group has also initiated an independent legal and accounting review of the allegations in the SSR and other allegations (including any allegations related to the Holding Company) to reassert compliance of applicable laws and regulations. Such independent review also did not identify any non-compliances or irregularities by the Group, and management has noted on record, the results of this review.

Based on the legal opinions obtained, subsequent independent review referred to above, the SC order and the fact that there are no pending regulatory or adjudicatory proceedings as of date, except relating to the SCNs as mentioned above, management of the Holding Company concludes that there are no material consequences of the allegations mentioned in the SSR and other allegations on the Company, and accordingly, no adjustments have been made in these financial statements in this regard.

Background, details and benefits of the transaction

Note 1: Borrowing of funds and obtaining Financial Assistance

The Company on its own and along with its subsidiaries is growing organically & inorganically and, in this pursuit, it is exploring opportunities including acquiring/developing power projects. It is also exploring other business opportunities for growth like land development/developing infrastructural facilities, etc. For funding of these projects / requirements and also to meet any temporary cashflow requirement, the Company and/or its subsidiaries, in its ordinary course of business, may require financial assistance in form of inter-corporate deposit, loan, subscription or purchase of securities / debt instruments and guarantees.

Note 2: Purchase of Investments / Securities and Availing Service

Purchase of Investments / Securities

The Company has identified certain land parcels located at various locations owned by subsidiaries of group company which are suitable for setting up a thermal power plant. In furtherance of the same, APL proposes to acquire such subsidiaries holding land parcels.

Availing Service

The Company plans to undertake expansion projects at the existing Raigarh and also at Raipur Thermal Power Plants with an additional capacity of 1600 MW (2 x 800 MW) each. Domestic manufacturers lack the bandwidth to provide a full EPC solution. Therefore these projects will be undertaken based on split package philosophy. Further, for the satisfaction of project sponsors; and lenders, who insist on overall project management including sourcing, engineering, quality, post order monitoring and execution, health & safety, post construction monitoring and handing over of the project to ensure timely completion and proper quality assurance. Accordingly, it is proposed to engage a professional Project Management Consultant (PMC) to manage and deliver the said service.

Considering the above, it is proposed to engage AIL for PMC services for Raigarh TPP and Raipur TPP due to its experience and expertise in handling such complex projects. PMC fees of 12.5% of hard project cost, which is expected to be ~ ₹ 1,377 crore (including GST) for Raigarh TPP and ~ ₹ 1,349 crore (including GST) for Raipur TPP, (excluding land cost, pre-operative expenses, financing cost, IDC, DSRA) to be charged over the period of respective contract. The approval for the

above proposed fees is being sought for based on the estimated consummation during each financial year of the contract period.

Note 3: Payment of lease rent

APPL has leased out its property situated in New Delhi admeasuring 1003 square meter for 20 years, to be used by APL for various business purposes. APL will pay the agreed lease rent to APPL for this. The Company also has an option to purchase the said property in future for its business purposes.

Note 4: Availing Operations & Maintenance (O&M) services.

In order to avail the expert services on O&M activities and attaining excellence, the said activities have been outsourced to AIMSL for all seven plants including Bitta solar power plant of the Company. AIMSL has O&M contracts of Adani Group's transmission and renewable businesses as well. The Company has awarded the contract of O&M Services to AIMSL with well-defined key performance indicators and liquidated damages conditions.

Note 5 : Purchase & Sale of Goods and Availing various Services

Purchase of Coal

APL and MEL are in the business of generating power for which good quality and timely availability of coal are essential. To ensure un-interrupted operations and power supply to its customers, APL and MEL propose to procure imported / domestic coal from AEL being one of the largest traders of coal in India, in normal course and in emergent situations.

Sale and Purchase of Power

At present, APL and its subsidiaries are selling/purchasing power under merchant market through AEL which has announced that its board has approved the sale / transfer of its power trading business which will be completed after the receipt of regulatory approvals. Adani Energy Solution Limited ('AESL') is proposing to enter the power trading business. APL and its subsidiary therefore propose to undertake power trading transaction through AESL post receipt of trading license by AESL. Hence, transactions with respect to sale and purchase of power with AEL will reduce to that extent.

- Purchase of Power

Due to non-availability of any of the plant for generation of the electricity on some occasions during the year, APL and its subsidiary may procure

power from alternative sources to fulfil its obligation under PPAs. In the absence of a trading license, APL and its subsidiary may purchase power through related parties holding trading license in line with the CERC norms.

- Sale of Power

In order to sell power in the merchant market through Energy Exchanges, APL and its subsidiary are required to sell power via trading licensee as per CERC norms. Hence, APL proposes to sale power to related parties holding power trading license to enable access to merchant market. Further, APL may sell power under existing bilateral agreements with related parties.

Sale of Fly Ash

Ministry of Environment, Forest & Climate Change (MoEF&CC) has mandated that thermal power plants are required to utilize / dispose 100% ash generated and prescribed procedure for its Enforcement. Any violation of such norms may attract imposition of Environmental Compensation / penalty on unutilized fly ash. In view of meeting the statutory requirements, the fly ash is proposed to be sold to AEL which possesses experience in managing overall supply chain and faster logistics to achieve maximum utilization of fly ash.

Availing various Services

APL and its subsidiary shall continue to get the benefit of various support services from AEL like Information Technology, Central Treasury services, Manpower Support services etc. The amount to be charged to APL and its subsidiary will be on a cost-to-cost basis allocated on reasonable parameters.

Further, with a view to comply with the norms of transportation of coal from mine at Suliari under Singrauli district administration and to ensure smooth transportation of coal, APL and its subsidiary propose to avail various support services from AEL which is having experience to handle large quantum of coal in the region. This will ensure operational efficiency through availability of uninterrupted coal supply to APL and its subsidiary.

Note 6: Lending of funds and providing financial assistance including Corporate Guarantee

APL, along with its subsidiaries / associate is growing organically and inorganically and, in this pursuit, it is exploring opportunities for acquiring as well as developing brownfield power projects.

In this regard, MEL/MPGL may need funds in order to meet requirements for expansion / acquisition. Power plants

are capital intensive in nature and thus require heavy initial and ongoing investment. Further, as per lenders' stipulation, APL may need to provide corporate guarantee as an additional collateral for the loan taken by MEL / MPGL.

This funding to subsidiary / associate would be unsecured and for long term or short-term tenure, depending on the requirement of the borrowing entity. Such funding will carry interest / coupon rate as per market rate prevailing at the time of disbursement.

Note 7: Investment in Shares and Securities

APL may need to invest, on a long term basis, in shares and securities of MEL / MPGL to meet requirement for capacity expansion / acquisition as setting up / acquisition of power plant is capital intensive in nature and thus require heavy initial and ongoing investment.

Note 8 (i): Purchase of Goods

In case of shortfall of availability of required quantum of coal, APL may procure coal from MEL / MPGL. The transaction would be in the commercial / beneficial interest of the Company as it will ensure uninterrupted operations and power generation.

Note 8 (ii): Sale of Goods

In case of shortfall of availability of required quantum of coal, MEL/MPGL may procure it from APL. The transaction would be in the commercial / beneficial interest of MEL / MPGL as it will ensure uninterrupted operations and power generation.

Note 9: Receiving of Services

Receiving of Supply and Services:

APL is required to shift EHV transmission line (18 nos.) on proposed railway alignment for its Raigarh Thermal Power Plant. For the said requirement the services for shifting shall be availed from AESL having experience in the field of transmission line operations.

Further, MEL is also required to shift EHV 400kV D/C Transmission Line (Jabalpur – Vindhyachal) of Powergrid which may create safety issues in its Phase II expansion plan. For the said requirement the services for shifting shall be availed from AESL having experience in the field of transmission line operations.

Receiving of O&M service:

AESL provides maintenance services for 33 KV lines in Raipur Thermal Power Plant which will ensure uninterrupted transmission from Raipur Power Plant. Hence, the transaction is in the commercial / beneficial interest of the company.

Note 10: Acquisition by way of Amalgamation

MEL, as part of its discussions, has been given to understand that AEL is desirous of divesting its investment in SMRPL holding mining rights in Dhirauli coal block ('Dhirauli').

As Dhirauli coal block is located in close proximity to MEL's power plant in Singrauli, MEL is ideally positioned to acquire Dhirauli coal block and use extracted coal for generation of power at its thermal power plant at Mahan. This will allow MEL to improve the availability of coal and provide it with an alternative source of supply to supplement its existing coal sourcing contracts resulting in optimization of overall coal cost and lead time. In view of the above, MEL proposes to amalgamate SMRPL from AEL for which MEL will pay consideration to AEL.

The Dhirauli coal mining block has a capacity to produce 6.5 MTPA of coal. This mine has been awarded to SMRPL on January 11, 2021 under a commercial coal mining license. Pursuant to an application for proposed amalgamation of SMRPL with MEL, Ministry of Coal (MoC) has issued a letter dt. May 08, 2024 to SMRPL consenting amalgamation of SMRPL with MEL. Post proposed amalgamation, a Mining Lease Deed by MEL with the Nominated Authority is expected to be executed.
